Connect with Friends

Welcome to Tahoe XC:

We offer 50 kilometers of groomed trails for skiers and snowshoers with fantastic views of Lake Tahoe. We operate as a concession to 4 different public land agencies.

A day-ticket or season pass is required for trail use; both can be purchased at the Lodge. It is important that you, the trail user, know and understand the importance of trail safety, and practice skier responsibility at all times.

Dog Trail Rules:

We groom 8 kilometers of dog-friendly trails. Well-behaved and voice controlled dogs are welcome only on trails designated with the paw icon. Please comply with the rules below so all trail users can enjoy the trails:

- Dogs are permitted on dog-specific trails ONLY
- Leashes are required at the trailhead and parking lot
- Clean up after your dog
- Keep your dog under voice-command

Snowshoeing:

Snowshoeing is another way to explore the trails. While all trails are available to snowshoers, it is snowshoe etiquette to give way to skiers and stay to the edge of the groomed trails. Tahoe XC also offers two snowshoe specific trails.

How To Use the Trails:

Walking is not permitted on groomed trails. All trails close at 5pm; **there is no trail sweep** at the end of the day.
